

**Table 1. A Proposed New Framework and Set of Indicators of Aid Quality**

Theme		Indicator
Prioritisation	P1	Aid reaching recipient countries (share of)
	P2	Allocation to poorer countries (poverty-weighted share)
	P3	Contributions to aid orphans (vs darlings)*
	P4	Multilaterals core support (share of)
	P5	Supporting selected global public goods (share of)*
Ownership	O1	Development interventions using recipient objectives (share of)#
	O2	Aid recorded in recipient budgets (share of)#
	O3	Use of recipients' national finance systems#
	O4	Reliability - scheduled aid recorded as received within period
	O5	Predictability - coverage of donor forward spending plans
Transparency	T1	Coverage of published information on projects (IATI* and CRS)
	T2	Comprehensiveness of IATI and CRS data
	T3	Timeliness of published projects and data (CRS and IATI)
	T4	Untied aid (declared and de-facto*, share of)
Learning	L1	Quality of evaluation*
	L2	Quality of learning systems*
	L3	Evaluations planned with recipient (share of)

\* Indicators which are new or in development

# Existing indicator to be adjusted for the fragility of recipient countries.
