Teaching Experience

Affiliated Associate Professor (Spring 2003 to present), “Macroeconomics” (master’s) and master’s thesis advising, Georgetown University Public Policy Institute.

Two-day PhD course on empirical strategies for studying foreign aid effectiveness, Institute of Economics, University of Copenhagen, as part of two-week workshop by Prof. Finn Tarp.

Teaching Fellow (Fall 2001), “Globalization and History” (undergraduate), Harvard University Department of Economics, Professor Jeffrey G. Williamson

Teaching Fellow (Spring 2001 and 2002), “Economic Development in East Asia” (undergraduate), Harvard University Department of Economics, Professor Dwight H. Perkins

Employment Experience

Georgetown University, Public Policy Institute Washington, DC
Affiliated Associate Professor January 2003 to present

- Taught master’s level course on macroeconomics, with a focus on developing countries
- Advised numerous master’s theses on development economics and public policy

Center for Global Development Washington, DC
Research Fellow July 2002 to Present

- Basic research on the development consequences of Official Development Assistance and the international migration of skilled workers

Harvard University, Center for International Development
Research Fellow

Cambridge, MA
May 2000 to June 2002

Basic research on:

- Determinants of private capital flows to developing countries, 1870-1999
- Determinants and consequences of developing country tariffs, 1875-1999
- Optimal international public finance for development
- Cost/benefit analysis of US policy towards developing countries

The World Bank, Environmental Economics and Indicators Unit
Consultant

Washington, DC
November to December 1999

- In a short-term project, formulated and defended six hypotheses on the environmental impact of financial crises using complex data from SE Asia.

Bain & Company

Associate Consultant

Istanbul, TURKEY
May to September 1999

- Helped major Turkish commercial bank develop competitive strategy in a recently-deregulated, high-inflation financial sector. Managed research assistant team and worked with top levels of client bank.
- Although our recommendations could double profitability, our long-term impact will not be known until the future. But after success in applying our initial findings, the client purchased a new consulting contract worth millions.

The World Bank, ECA Department

Consultant

Washington, DC
September 1998 to February 1999

- Created economic model of optimal land use policy adopted by the Turkey Forest Sector Review (FSR).
- Co-authored major study of the economic value of Turkish forestland, proving conclusively that this value is maximized by concentrating forest management on non-timber goods & services. Primary product of the FSR Global Overlays Program.

The World Bank, AGR Department

Summer Assistant

Washington, DC and Georgetown, GUYANA
May to August 1997

- Created economic model of Indonesian land use and presented resulting forest policy recommendations.
- In Guyana, worked with World Bank team and Guyanese government officials to negotiate legal and institutional coordination issues surrounding implementation of Guyana's first national park.
- Chosen as sole member of team to remain in Guyana, researching cost/benefit analysis of proposed park.

Environmental Defense Fund

Consultant

Oakland, CA
November 1996 to March 1997

- Critically reviewed environmental impact of billion-dollar river development project in South America.
- Worked with team of anthropologists, economists, and environmental scientists from USA, Brazil and Argentina as member of expert panel.
- Co-authored lead article in published EDF volume, cited by a senior official at the World Bank as a major factor in the January 1998 decision by a Brazilian federal judge to terminate Brazilian support for the project.

The World Bank, ENV Department
Summer Assistant

Washington, DC
June to August 1996

- Calculated hypothetical effects of valuing environmental damages within national accounts worldwide.
- Developed and implemented computable models of several global natural resource markets. Co-authored resulting paper in the peer-reviewed journal *World Bank Economic Review*.

The Thomas J. Watson Foundation
Research Fellow

Bogotá, COLOMBIA and Cuiabá, BRAZIL
August 1994 to August 1995

- Full-year resident in low-income areas of Colombia and Brazil.
- Studied the effects of social and ethnic conflicts on performance of United Nations forest conservation projects.

Honors

- Derek Bok Certificate for Excellence in Teaching, Harvard University (Fall 2001). Nominated for Levenson Memorial Teaching Award, Harvard University (May 2002).
- National Science Foundation Graduate Research Fellowship (Mar. 1996).
- “STAR” Merit Scholarship from the Environmental Protection Agency (Aug. 1996); Three years graduate school tuition and stipend [declined].
- Abel Wolman Merit Scholarship from The Johns Hopkins University Department of Geography and Environmental Engineering (May 1995); One year full tuition and stipend.
- Perfect score on Graduate Record Examination (Nov. 1993), Analytical and Mathematical Reasoning Sections.
- AT&T Leadership Award (April 1993).
